

Porto
Porto Bites and Sights

Porto is a delightful city to which many visitors flock each year to join or alight the many wonderful Douro River cruises. Porto is also delicious and, whilst exploring popular modern-day attractions on a Discover Portugal, Spain & Morocco Holidays' tour, one can sample a terrific selection of the tasty and appetising bites. Your clients will visit some of the city's most beautiful sights, including stunning views from balconies overlooking the river, unexplored streets and alleys, as well as popular taverns, markets and cafes. The touring feast starts with a typically Portuguese tradition, indulging in a 'pastel de Nata' (custard tart), in a cafe that is more than 200-years-old. From there, your clients will taste and talk about the 1001 ways to prepare the 'bacalhau' codfish, discover the culinary connection with the river and sea, and learn about Portuguese navigators and the tragedies which befell those cruising the Douro River in early days. Along the way authentic local specialties to be tried and tested will include bolinho de bacalhau, comfort food such as a spicy pork sandwich and mind-blowing cheeses and smoked meats and when in Porto, of course one must celebrate with a delightful Port wine cocktail.
